What's new:

When you create your character, you will need to choose a name and a class, and then give your character a gender. Then, you can customize your appearance. Sculpting faces, clothes, weapons, armor, and accessories is available. Also, you can create an exclusive appearance for a legendary sword called the Demon Bracer.

If you proceed to the end of the creation process, you will come to the Room of Gender: The area where you can change the gender of your character. You can only choose one gender for a character at the moment, and there is no way to switch back to the other gender. This has no effect on the amount of power and the items that you can attain in the game, but it affects the appearance of your character in the game.

Bardic Rite and Magic You start with Skill Up, which gives you the Skill Points of your class. You can also get Skill Points by leveling up over time, and you can use those Skill Points to level up your Skill Related abilities. Skill Up is solely used to Level Up your Skills, and this will be the highest level that you can raise your skills to.

In this game, there are three tiers of abilities:

- **Weapon Ability:** Allows you to deal damage by attacking. When your melee attacks are successful, this number increases.
- **Basic Sorcery:** Allows you to use basic magic effects that normally require some practice to use.
- **Sorcery Abilities:** When you level up Sorcery, this number increases and you can unleash a great variety of magic attacks.

You can Level Up using Stamina Points which can be earned from killing monsters, and you have twenty thousand Stamina Points to begin with.
