Welcome to the GTA IV Launcher. If you are new to using the launcher, you must download the "GTAIV Launcher" addon and install it. Follow the instructions in the "Using the GTA IV Launcher" section to use the launcher. If you are already using the launcher and want to add more mods, you can download the "GTA IV Launcher mod" addon from your games library. Follow the instructions in the "How to Add Mods with a Launcher" section to add mods to your launcher. Using the Launcher You can use the launcher either on a single Grand Theft Auto IV game or on multiple games. To access the launcher, click on the Launcher icon in the lower right-hand corner of the main menu. To switch to a specific game, you can click on the game name in the launcher. You will then be able to add mods, change settings, or get help. How to Use the Grand Theft Auto IV Launcher How to Add Mods with a Launcher. When you use the launcher to add mods, you will need to specify the exact location of the mod. You will also be able to choose whether you want the mod to be automatically loaded when you start the game. You will have the option of specifying which mods should be loaded automatically and which mods should be loaded manually, as well as the ability to add your own mods manually. When you start a game using the launcher, you will automatically be loaded into the game. The launcher allows you to choose if you want to start a new game or take your current game to a new location. If you do not want to start a new game, it is a good idea to exit the launcher to prevent the launcher from adding all of your mods to the current game. Using the Grand Theft Auto IV Launcher on Grand Theft Auto IV When using the launcher to play Grand Theft Auto IV, you can configure the launcher to load the save that was most recently used on the device that is running the launcher. If the save that was most recently used is not saved on your device, the launcher will create a new game instead. If you want the launcher to create a new game, press the Create new save button, make sure you select the save that was most recently used on your device, and then press OK. GTAIV Launcher can
