Inspired by the exploding popularity of Call of Duty and Resistance, the Full-On Paintball team has created an ultra realistic paintball experience. You must have an active Call of Duty, Resistance, Halo, Halo: Reach, or Resistance: Retribution account on Xbox LIVE in order to play. Multiplayer mode allows up to 32 players on each team in custom matches with special rules that support the objective of the game: Capture the Flag, Elimination, and Last Man Standing. Classic Mode is a quick-paced game mode in which players take turns, shooting their opponents until only one player is left standing. Complete creative freedom in Multiplayer mode with the ability to create your own maps, weapons and game modes. Deep and engaging single-player campaign, featuring 24 weapons to unlock, with 9 different gameplay scenarios for an immersive story. Optimized performance throughout the game, for fluid gameplay and high detail visuals. Dedicated servers for high quality multiplayer combat in the global network. Variable character models, weapon animations, and cover effects. Advanced ball physics that models real-world behaviors in order to promote strategic gameplay and realistic effects on the battlefield. Machine gun-style Ammo spread and wander around animations Tool upgrades that use ammo, should you run out. Defensive Stance Choosing when to play defense or attack is now a strategic decision in every game, as players are no longer punished for being unprepared. There are two modes of defense: Attack and Escape. Attack - A player in the attack state has decided to attack a target. He then has the opportunity to attack in the time window that remains on the Attack screen. Attackers can switch from being Attack to being Ready between attacks. - A player in the Ready state has not decided to attack and is in possession of the camera, or'sight'. If the Sight leaves the Ready state, the player attacks immediately. Escape - A player in the Escape state has decided to attempt to make his way to safety. The player can switch to being Attack during movement, attack after movement, or immediately when being attacked. - A player in the Ready state has not decided to attack and is in possession of the camera, or'sight'. If the Sight leaves the Ready state, the player escapes immediately. Ammo Players can purchase up to 40 rounds of Ammunition during gameplay. A player can only use one weapon at a time; switching weapons requires a magazine change. Healing Players can recover

You're dying of starvation. Your life is worthless to you. Your body is ruined. Why would anyone ever choose this over food, you might think. Yet here you are, and that is what is important. Your life, and if need be, your mind. But this will only help so much. Your food source could have been stolen, your people could be starving, or there could be an impending evil empire on its way to kill off your people. The choices are yours. Will you make the right ones?If this sounds like the opening of a fantasy RPG, you'd be right. This game is like a fantasy RPG. Yes, you can even wander around with a sword in your hand. However, your decisions aren't based on a character. Instead, every choice you make affects the story. And there's a good chance that you'll die. You can't kill yourself, but you can hurt yourself. Still, there are three distinct endings. You can live in fear or you can find the courage to do what must be done. Once you've made your choice, it's done. You can't go back and change your mind. Make the right choices, and maybe even live to see the game's ending. You have been warned. The original anime I Am Bread is an emotional rollercoaster that will test your faith and loyalty. You are an average townspeople in the world of Elyz. This is where your duty is, and yet your hunger to survive does not let you have it easy. However, if you wish to play as a human, which is the only kind of person that matters in the game, you must first be a Bread. The game has two campaigns, each of which has different goals and uses the same characters. The Drowned Campaign is set on the island of Way, which has been ruined after a flood hit the area. The player is an unnamed person, and the story features the deaths of all four of Elyz's children and a turning point for the town. The Second Campaign takes place in the town of Elyz, where a strange illness has turned people into I Am Bread. You play as Bala, who tries to end the hunger of Elyz. Once you defeat the evil, you can explore the other sectors of Elyz, which have each been taken over by different elements of the supernatural. This will have different endings depending on what you find. I Am Bread features a video game adaptation of the anime I Am

Although many of us might think that Corsica is an island no bigger than the state of Rhode Island in United States, we must remember that it is almost the size of Wales, England, or Iceland. There are some 46,000 people that live there. The island's size is almost equaling the size of the Netherlands. Today, "Corsica" is a geographic reference to the whole island, but the "Ajaccio" region and the surrounding coastline, is one of the most famous places in the whole world, thanks to Napoleon Bonaparte. The Maison Bonaparte and the "Isle Ephranger" (Museum of Ajaccio), all thanks to the famous Napoleonic period, is the most famous place in town. The city of "Ajaccio" was built in the 400s by the Corsicans and the Genoese. A fortress, the city was divided into two portions (Eastern Side and Western Side) and gradually got bigger. Corsican or Corsican born after 1812 are most likely to be the result of an interracial union. Mostly, it is a marriage between a German and a Corsican. It happens more and more often. However, much of the island's population is of Italian descent. It has the biggest Italian majority in Europe. The islanders live in very traditional and conservative ways. The primeval language of Corsica is still a secret to foreigners. In Ajaccio the dialect from the Middle Ages, called "Ajacciano" is still spoken. Ajaccio is the only city in the world where you can hear the Corsican language spoken in all its originality. Thank you for this evening, I am selling this scenery as a gift. It was a lot of work and I hope you like it. Enjoy!Promotion of optimal body composition and amelioration of depression in prediabetes by high-frequency transcutaneous electrical nerve stimulation. We examined the effect of high-frequency transcutaneous electrical nerve stimulation (HF-TENS) on body composition and amelioration of depression in patients with prediabetes (DM-P). Thirty patients with DM-P (aged 45.7 ± 10.7 years) were randomly assigned to an HF-TENS group (n = 15), a control group (n = 12), and a lifestyle counseling group (
